Research Interests

My research investigates how people can understand and steer AI decision-making through interactive explanations. I develop interfaces and learning methods that translate human feedback into changes in agent behavior.

Education

National University of Singapore Aug 2024 – Present
PhD Candidate, School of Computing

Southeast University Sep 2020 – Sep 2024
Bachelor of Computer Science

Research Experience

PhD Candidate, *Ubicomp Lab, NUS* Aug 2024 – Present
Advisor: Prof. Brian Lim

Research Assistant, *Ubicomp Lab, NUS* Aug 2023 – Apr 2024
Advisor: Prof. Brian Lim

Research Assistant, *COOLA Lab, Southeast University* Aug 2021 – Aug 2023
Advisors: Prof. Yan Lyu and Prof. Wanyuan Wang

Teaching

National University of Singapore

CS4246/5446 Reinforcement Learning and Sequential Decision Making AY2026/27, Sem 1

CP2107 Independent Introduction to CS Research (Odyssey) May–Aug 2026

CS3263 Foundations of Artificial Intelligence AY2025/26, Sem 2

CS3244 Machine Learning AY2025/26, Sem 1

Professional Service

Reviewer

ACM Conference on Human Factors in Computing Systems (CHI) 2026, 2027

AAAI Conference on Artificial Intelligence (AAAI) 2027

IEEE Transactions on Intelligent Transportation Systems 2025
